Objective:

Seeking a challenging position in a reputable enterprise where I can apply my practical knowledge in Frontend development and enrich my technical abilities while contributing to the organization's thriving.

Experience:

- Coding Instructor (iSchoolTech)   Sep 2023 – present
    - Delivered over 500 sessions across multiple grades, maintaining 100% quality for more than 6 consecutive months remotely.
    - Integrated hands-on activities, increasing student engagement by 30% based on feedback surveys.
    - Taught HTML, CSS, JavaScript, Flutter, Python, and Unity, empowering students with practical programming skills.

- Front-End Developer (freelance work)   Sep 2023 – Feb 2024
    - we designed and developed a comprehensive online platform for the Faculty of Commerce, streamlining the application process for master's and professional diploma programs.
    - This platform enables students to submit applications online and provides real time application status tracking until final approval.
    - Reduced application processing time by 40% through real-time tracking and automated file uploads.
    - Collaborated with cross-functional teams, ensuring smooth project delivery within deadlines.
    - Implemented a course selection feature for accepted students, allowing over 80% of them to choose courses without staff intervention.

          - Angular   - Angular-Material   - RxJS, SCSS   - NodeJS

- Front-End Developer (Roots Solutions)   Jun 2021 - May 2022 (1 year)
    - Dynamic Forms : The system is able to create forms and allows the user to control validation, input types, design without write code.
    - Integrated Google Maps API, providing location-based recommendations and optimizing routes, reducing travel time by 20%
    - Implementing continuous improvements, working on frontend.
    - Functional programming in templates and plugins to add the necessary monitoring features.

          - HTML, CSS   - Js/jQuery   - Bootstrap   - Ajax, Json

Education:

- Kafr-ELsheikh University, Egypt   2019-2023

- Bachelor degree in Computer Science & Information Systems (department of software engineering)

Technical Skills:

- JavaScript, C++, C#, TypeScript, python
- Angular and Angular Material
- jQuery, Ajax, Json, Bootstrap
- Data structure and algorithms
- Git/GitHub
- Problem Solving, OOP
- Html ,(S)CSS
- RxJs

Soft Skills:

- Problem Solving and Critical Thinking
- Communication and Team Collaboration
- Time Management and Organization
- Adaptability and Continuous Learning
- Leadership and Mentoring
- Attention to Detail
- Creativity in Solution Design
- Flexibility

Courses:

- Route Academy (Front-End Web Development Diploma Certification).
- Udemy (Angular by Maximillian.).
- FreeCodeCamp (JavaScript Algorithms and Data Structures).

Languages:

- Arabic: Native Speaker.
- English: Intermediate(B1).
