Objective:

Seeking a challenging position in a reputable enterprise where I can apply my practical knowledge in Frontend development and enrich my technical abilities while contributing to the organization's thriving.

Experience:

- Coding Instructor (iSchoolTech)   Sep 2023 – present
  - instructor at iSchoolTech, teaching programming to students of various grades remotely.
  - Skilled in delivering engaging lessons and encouraging hands-on learning, ensuring students grasp fundamental programming concepts with enthusiasm.
    - Html, Css, Js   - Flutter   -Python.   - Godot/Unity.

- Front-End Developer (freelance work)   Sep 2023 – Feb 2024
  - we designed and developed a comprehensive online platform for the Faculty of Commerce, streamlining the application process for master's and professional diploma programs.
  - This platform enables students to submit applications online and provides real time application status tracking until final approval.
  - It also facilitates efficient file uploads and processing by staff, ultimately leading to student acceptance.
  - Additionally, the system allows accepted students to view available subjects within their chosen diploma and select their preferred courses.
    - Angular   - Angular-Material   - RxJS, SCSS   - NodeJS

- Front-End Developer (Roots Solutions)   Jun 2021 - May 2022 (1 year)
  - Dynamic Forms : The system is able to create forms and allows the user to control validation, input types, design without write code.
  - Google Maps Api: This application allow users to know nearby places(markets) by live location. The distance between any two locations had been selected, and best route between them,etc.
  - Implementing continuous improvements, working on frontend.
  - Functional programming in templates and plugins to add the necessary monitoring features.
  -
    - HTML, CSS   - Js/jQuery   - Bootstrap   - Ajax, Json

Education:

- Kafr-ELsheikh University, Egypt   2019-2023
  - Bachelor degree in Computer Science & Information Systems (department of software engineering)

Technical Skills:

- JavaScript, C++, C#, TypeScript, python
- Angular and Angular Material
- jQuery, Ajax, Json, Bootstrap
- Data structure and algorithms
- Git/GitHub
- Problem Solving, OOP
- (S)CSS
- RxJs

Courses:

- Route Academy (Front-End Web Development Diploma Certification).

- Udemy (Angular by Maximillian.).

- FreeCodeCamp (JavaScript Algorithms and Data Structures).

Languages:

- Arabic: Native Speaker.
- English: Intermediate(B1).
